

Class Grade Calculator - Original Wireframes

*These were created at the beginning of the semester, and do not resemble our current app. Also, we were planning on including a GPA calculator at the start of the project, which can be seen in Wireframe 2. However, this did not make it into the final project.

Wireframe 1

The wireframe shows a browser window titled "Browser Window" with a URL bar containing "http://www.url.com" and a search bar. The main content area is titled "Landing Page". It features two input fields on the left, labeled "Student Name:" and "Student School:". To the right of these fields are two large, empty rectangular boxes. Below the input fields is a "NEXT" button. At the bottom of the page is a "Footer" section.

Wireframe for the landing page of the software. It would consist of two input fields that ask the student for their name and their school. Additionally, images would be displayed on the right side of the page. This page may also include a form that allows you to choose which calculator you would like to use: the class grade calculator, or the GPA calculator. Upon filling out the input, the user would click the next button to move on to the next step.

Wireframe 2

The wireframe depicts a web browser window titled "Browser Window". The address bar shows "http://www.url.com" and there is a search bar with the placeholder text "Search". The main content area is titled "GPA Calculator". Below this title, the section "Semester 1" is displayed. It contains a table with five rows of class data. Each row has four columns: "Grade:", a grade letter, "Credit Hours:", and a numerical value. Below the table are two buttons: "Add Another Class" and "Add Another Semester". At the bottom of the main content area, a box displays "Your current GPA is: 3.60". The footer of the page is labeled "Footer".

Semester 1			
Grade:	A	Credit Hours:	3
Grade:	A	Credit Hours:	4
Grade:	B	Credit Hours:	4
Grade:	A	Credit Hours:	3
Grade:	C	Credit Hours:	1

Add Another Class

Add Another Semester

Your current GPA is: 3.60

Footer

Wireframe for the GPA calculator of our software. It would consist of input boxes that allow the user to enter their grade, and the credit hours for a certain number of classes. It will also give the user the option to add another semester, or add another class. It will show the user's calculated overall GPA at the bottom of the screen.

Wireframe 3

The wireframe shows a browser window titled "Browser Window" with a search bar and a URL field containing "http://www.url.com". The main content area is titled "Class Grade Calculator" and contains the instruction "Please enter your grade, along with the weights for the different assignments". Below this is a table with six rows of assignment data. Under the table is a button labeled "Add Another Assignment". At the bottom of the main content area, a box displays the calculated class grade: "Your class grade is: 88.95%". The footer area is labeled "Footer".

Assignment	Grade	Weight
Assignment 1:	85	Weight: 40
Assignment 2:	70	Weight: 10
Assignment 3:	87	Weight: 10
Assignment 4:	100	Weight: 20
Assignment 5:	100	Weight: 5
Assignment 6:	95	Weight: 15

Your class grade is: 88.95%

Wireframe for the class grade calculator of our software. It would consist of input boxes that allow the user to enter their grades for certain assignments, as well as the applied weights. It will also give the user the option to add another assignment if needed. It will show the user's calculated overall class grade at the bottom of the screen.
